

CERTIFICATE OF CONFORMITY

I undersigned Christophe MICHAUD, President of the company Navailles, certify that below products are in accordance with technical prescriptions - Health Furniture of the label NF Ameublement. Actually, medical chairs are conceived and made by taking into account functional characteristics, dimensional characteristics (heights, depth and widths of seat and decline of backrests etc.), criteria of ergonomics and adaptability to the patient and tries of safety.

They also answer to the Directive 93/42 CE, as medical devices and are marked CE. The conception and the quality of the used materials answer to the requirements of the European standards in particular concerning the qualification of the materials of covering and upholstery.

Finally, the classification on the fire is controlled by minimizing the calorific potential and by estimating the risk of fire on seats following the recommendations of D2-2000.

■ RANGE : Eleganza

■ Resting Chairs

EL910 EL920

■ Geriatric Chair
